St. Louis County Guidelines for Reentry and SGM Response

<b>STLCO Guideline</b>	<b>SGM Response</b>
Establish a plan for daily screening for illness or exposure to the coronavirus	Completed at home and documented through daily email
Minimize interaction--stagger lunch times, alternate common space usage and keep students in cohorts to the extent possible	Students are kept in cohorts during class time. Lunch is in classroom, cafeteria, outside
Keep students physically distanced in a classroom to the extent possible	Students are spread out as much as possible and all facing one direction. Students will be instructed to distance when in line and moving through building
Avoid large gatherings that mix multiple groups and do not allow for social distancing. Avoid assemblies and pep rallies for the near future	No inter-grade activities with the exception of middle school electives and mass attendance. Students will stay with grade level cohort during recess
Develop contingency plans to respond to changes in the level of transmission in the community. Protocols should be developed for virtual learning that can be activities if the circumstances dictate.	Plans are being developed for all school, or all grade distance learning. Individual distance learning is only available to those with medical conditions that warrant quarantining. Support will be available through school.
